**PN 25320-X and PN 25323-X Bonnet Material**

Gilmore announces a bonnet change to our Hydraulic Relief Valve series: PN 25320-X and PN 25323-X. For the relief valve part numbers listed below, the CF8M bonnet casting will be temporarily changed to 316 SS machined bonnet until new castings can be restocked.

Please note that while this change increases the valve envelope, it does not affect the valve's port location. The bonnet maximum width has now increased from 2.00 inches to 2.70 inches. The porting location for these bonnets are identical and can be swapped out directly.

The following part numbers are immediately affected by this change:

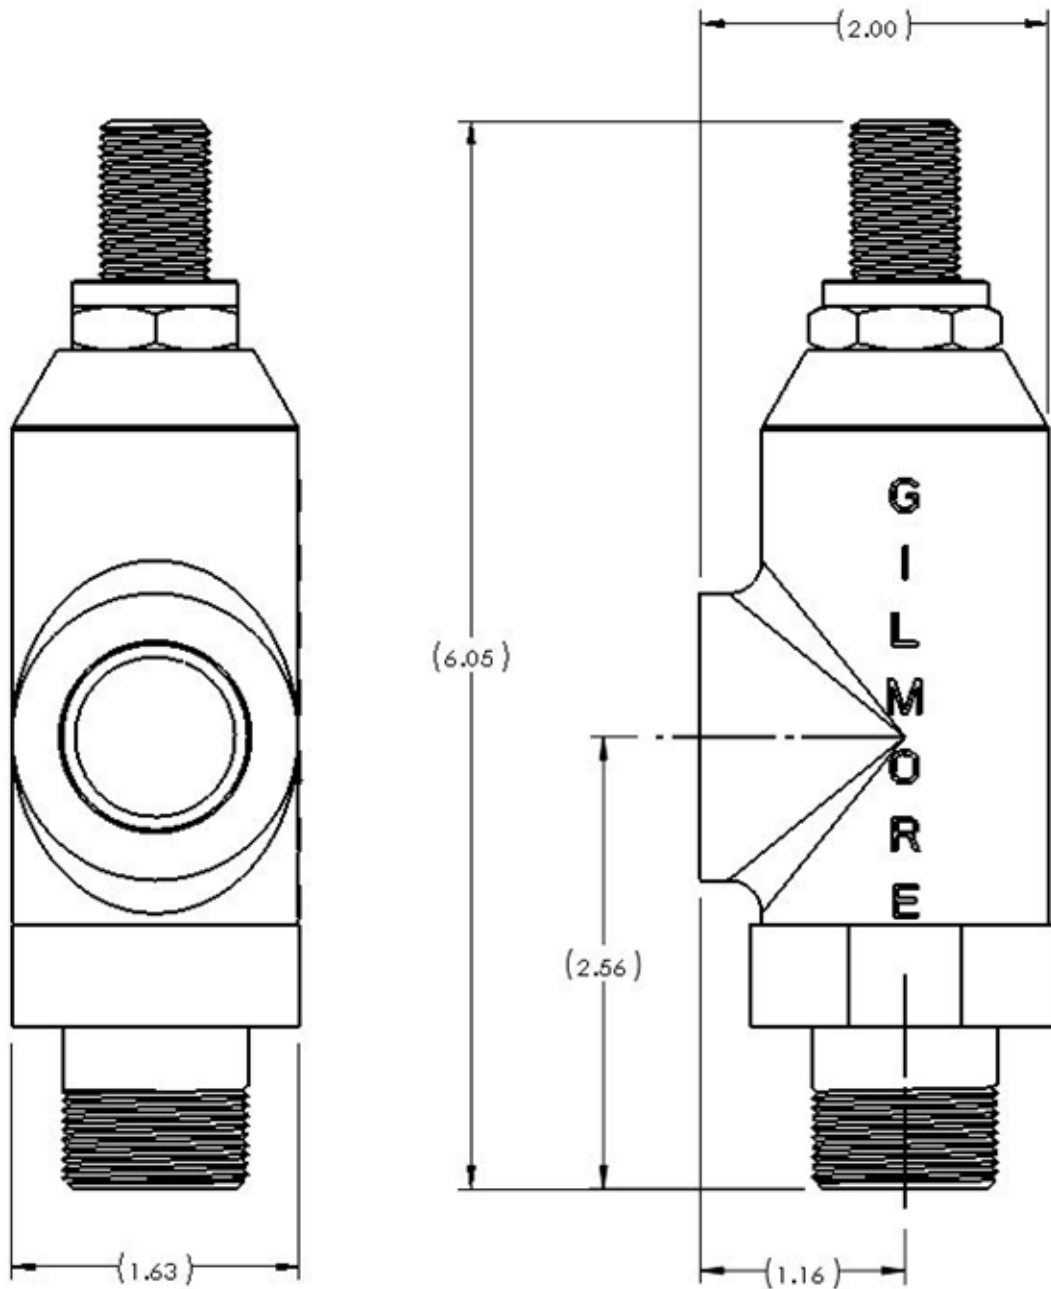

PN 25320-1, PN 25320-2, PN 25320-3, PN 25320-4, PN 25320-5  
PN 25323-1, PN 25323-2, PN 25323-3, PN 25323-4, PN 25323-5
